57	DUET 23:10	<i>In case of Nocturnal Emissions, self-isolate for 1 day and wash.</i>

UNSURE LAWS

GEN 01:28	<i>Have children.</i>
-----------	-----------------------

*Some laws are repeated multiple times. In this case, the first or clearest occurrence is referenced while the others are not recorded in this list. Also note some commands were only for specific instances (like when to gather manna in the wilderness). These commands have been omitted since they are instructions for specific instances and not overarching laws.

A *moral law* is a law that comes from the character of God and thus is not bound by specific situations or time periods. A *judicial law* is a law directed towards the government of Israel & not the people. A *ceremonial law* is a law that revolves around the sacrificial system or the ancient Jewish feasts. Some laws were a matter of morality at the time so the principle applies, but the specific no longer does, such as Exodus 22:26.
